

Don't bank on your mattress.

Hiding money at home isn't safe. But when it's in bank deposit accounts insured by the FDIC and you stay within coverage limits, you can't lose a penny, no matter what. No one ever has in more than 75 years. Make sure your money in checking, savings or CDs is 100% protected. Use EDIE The Estimator at myFDICinsurance.gov. Then, you can sleep well.

The more you know,
the safer your money.
